Bad Sickness  
Caused by  
Acid-Stomach

If people only realized the health-destroying power of an acid stomach—of the many kinds of sickness and misery it causes—their lives would be literally wrecked—they would guard against it as carefully as they do against a deadly plague. You know in an instant the first symptoms of acid-stomach—nausea, indigestion, distressing, painful bloating, sour, gassy stomach, belching, food retching, heartburn, etc. Whenever your stomach feels this way you should lose no time in putting it right. If you don't, serious consequences are almost sure to follow, such as intestinal fermentation, auto-intoxication, impairment of the entire nervous system, headache, biliousness, cirrhosis of the liver, sometimes even catarrh of the stomach and intestinal ulcers and cancer.

EATONIC  
FOR YOUR ACID-STOMACHWOMEN SUFFER MOST  
IN HOT WEATHER

Men Do Not Know What Constipation Means As a Rule.

Women are bothered more than men with inactive bowels and liver. They suffer especially in hot weather when lazy weather makes lazy livers and particularly at certain periods, and at such a time of any other time it is dangerous to be taking huge doses of laxating and upsetting cathartics and purgatives.

A Home Recipe for  
Wrinkled, Saggy Skin

The famous exaltol lotion recommended by beauty specialists for removing wrinkles and for reducing disordered pores can be easily made at home. Ask your druggist for a half pint of witch hazel. Dissolve this in a quart of water. Add a few drops of the exaltol. Use the lotion on the face, neck and hands in the evening. Results are remarkable and instantaneous. The skin is soft, supple and naturally fresh. It is a real skin cream and a real skin tonic. One feels much refreshed and exhilarated after using this truly wonderful preparation. Many women look five or ten years younger after using only a few drops.
